# Organizational Structure

# Our Services

## TECHNICAL MANAGEMENT

**Fariva Ship – FZCO** offers a comprehensive range of services to help our managed vessels to operate efficiently and profitably with full local and international compliance. With the guidance of our diversified team of the technical crew, Fariva Ship provides full technical services that include but are not limited to repair, proper maintenance, surveys and so on. Our simplified, practical and user-friendly technical innovations assure that all vessels operating requirements are fulfilled. Our in-house technical support includes dry dock, hydraulics, electrical and crane specialists, leading to effective technical management. Fariva Ship sees to it that the vessels are maintained in optimum condition by customized PMS, SMS and SQE that are at par with the highest industry standards.

## CREWING MANAGEMENT

**Fariva Ship – FZCO** offers crew management services to help our clients to be more competent and productive. Strong policies are implemented to ensure high standards are accomplished and maintained.

Our seafarers undergo competency evaluation tests each time they report their readiness for rejoining. The purpose of the competency evaluation is to reveal any gaps which in turn enable us to conduct tailor-made training programs on board by our roving superintendents. At Fariva Ship, we ensure that the crew is up to date with current job requirements and industry updates. We see to it that the seafarers are competent and able to handle day-to-day situations, over and

# Our Services
